

GPCI History of the Board of Directors and Timeline

Prior to incorporation of GPCI, the credentialing activities were carried on as a committee of AAGP. On that committee, a variety of leaders in the field of grant writing served. Many of these individuals stayed with the group as corporate officers during the early years. GPCI owes a debt of gratitude to these pioneers and visionaries. In September of 2003, GPCI incorporated and these were the persons responsible for setting our path for years to come.
